PROFESSIONAL SUMMERY

Dedicated Siebel Developer with experience in building and improving CRM solutions. Skilled in Siebel configuration, process improvement, and system performance. Good knowledge of Siebel Tools, eScript, Workflows, and Business Services to meet business needs. Always eager to learn and grow and looking forward to contributing to a progressive organization.

EDUCATION

JNTU Kakinada, Andhra Pradesh

Bachelor of Technology: Electronics and Communication Engineering

June 2018 – June 2022

CGPA: 8.17

EXPERIENCE

Software Engineer: LTM | Mumbai, India

Project -1

May2025 – Present

- Currently working for India's second largest bank, managing and enhancing key modules such as Lead Management and Complaint Management in Siebel CRM.
- Configuring and customizing Siebel applications including Applets, Views, Business Objects, Business Components, Workflows, and Business Services to support business requirements in Lead and Complaint module.
- Handling production issues and change requests with minimal downtime, ensuring uninterrupted banking operations.
- Developed and maintained integrations using Siebel EAI (Web Services) and REST API with core banking and third-party systems.
- Designed and implemented Siebel Workflows, and RCR Jobs.

Project -2

January 2024 – April 2025

- Worked on a Central Government project related to company and LLP regulations under the Companies Act and LLP Act.
- The Siebel application was used as a backend system to capture form details and store company and LLP master data.
- Contributed to developing important modules in the project. Developed new workflows to implement business validations as required.
- Developed workflows to apply required business validations.
- Configured different Siebel components such as List of Values (LOV), Business Components (BC), Fields, Picklists, and Validation rules.
- Handled master data updates after form approvals and resolved stakeholder issues through tickets.
- Worked with external teams to resolve and close ticket issues.
- Communicated with users to resolve urgent and escalated issues during form submissions.
- Supported production by resolving issues and handling queries using the C-Zentrix tool.
